Currently,I am in my third year pursuing a bachelor's degree in Computer Science and Engineering from Indian Institute of Information Technology Design and Manufacturing, Jabalpur. I am passionate about solving real world problems with the use of software and technology. Whether I write a small piece of functionality or a tool to increase productivity/efficiency, I always strive for code that works seamlessly. I work smart to write clean, reliable and maintainable code. I can balance between trade offs and know when to optimize or when to let the compiler do it. I can lead and I can follow. I can design and I can follow others design. I can do it. Skills: Problem Solving, Data Structures and Algorithm, Software Design and Development

Education

Institute Name	Degree	Stream	Start Date	End Date	Grade
PDPM Indian Institute of Information Technology, Design and Manufacturing Jabalpur	B.Tech	CSE	July 27, 2015	Aug. 1, 2019	8.0
St. Michael's High School	12th Grade	Science	April 1, 2013	May 5, 2015	95

Work Experience

Achievements

- Qualified for Onsite Round of ACM ICPC Asia Kolkata Region 2016
Issuer: ACM **Dec. 28, 2016**

Skills and Technologies
